

Author Contribution Statement

Using the CRediT (Contributor Roles Taxonomy) categories. This draft reflects the project's evident structure – a candidate/first-author driving the implementation and experiments under a named supervisor, per the TCG CREST/CQuERE ARC program record – but the specific role assignments below are a starting draft, not a verified record: only the authors know the true division of labor, and this should be corrected before submission if it misrepresents either author's actual contribution.

Sparscho Chakraborty: Conceptualization, Methodology, Software, Validation, Formal analysis, Investigation, Data curation, Writing – original draft, Visualization.

Siddhartha Patra: Conceptualization, Supervision, Writing – review & editing, Resources.
